DETAILED ACTION

Response to Arguments

Applicant's arguments filed 12/30/08 have been fully considered but they are not persuasive.

Applicant disagrees with the 101 rejection on Claim 40.

Examiner disagrees.

When the apparatus comprising only software components as supported by the specification, it is considered that the apparatus is configured as a software framework, thus, the apparatus is considered as a program/software per se, which is not one of the categories of statutory subject matter.

The 101 rejection is maintained on Claim 40.

Specification

Claim 42 is objected to because according to MPEP 608.01, antecedent basis for the terms appearing in the claims, while an applicant is not limited to the nomenclature used in the application as filed, he or she should make appropriate amendment of the specification whenever this nomenclature is departed from by amendment of the claims so as to have clear support or antecedent basis in the specification for the new terms appearing in the claims. Applicant will be required to make appropriate amendment to the description to provide clear support or

antecedent basis for the terms appearing in the claims provided no new matter is introduced. The term “Computer-readable medium” lacks clear support or antecedent basis in the description of the specification. Please also see 37 CFR 1.75 (d)(1).

Correction is required.

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claim 40 is rejected under 35 U.S.C. 101 because according to pages 3 of the specification, “A Service Provision Apparatus” configured as a software framework. “A Service Provision Apparatus” comprising a reception unit, a service provision unit, operation history unit (i.e., software, see specification 0091, 0094, 0113, and 0124) does not include any functional hardware structure. A Service Provision Apparatus comprises software is considered as program per se, which is not one of the categories of statutory subject matter.

Allowable Subject Matter

Claims 22-28, 31-37, and 43 are allowed.

Claims 40 and 42 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 101 and the claim objection set forth in this Office action.

Conclusion

Examiner's Notes: Examiner has cited particular columns and line numbers in the references applied to the claims above for the convenience of the applicant. Although the specified citations are representative of the teachings of the art and are applied to specific limitations within the individual claim, other passages and figures may apply as well. It is respectfully requested from the applicant in preparing responses, to fully consider the references in entirety as potentially teaching all or part of the claimed invention, as well as the context of the passage as taught by the prior art or disclosed by the Examiner. In the case of amending the claimed invention, Applicant is respectfully requested to indicate the portion(s) of the specification which dictate(s) the structure relied on for proper interpretation and also to verify and ascertain the metes and bounds of the claimed invention.

Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
